

At DelStar Technologies, we are committed to expanding our filtration and separation, medical and industrial product offerings. Our new line of high-performance rods, cores, tubes and machined shapes will provide a totally different range of opportunities for our customers.

Coretec Extruded Cores & Precision Machined Parts

DelStar Technologies is very proud to introduce our new and unique product line. Through acquisition of two respected organizations, DelStar now has profile extrusion operations and a highly-specialized machine shop. The new facilities expand our ability to serve you by extending our United States presence to the west coast.

The new **Coretec™** product line includes a wide range of high-performance components, made from advanced engineering-grade resins and stainless steel. Filtration products include center tubes for reverse-osmosis water filters, cores, pressure vessels, machined parts, adapters and interconnectors. We also offer a distinct collection of medical tubes, and valves, gaskets, pipe liners and roll covers for industrial applications.

Advanced Technologies and Processes

- Specialty drilled cores, tubing, rods and machined parts
- Products made from high-performance engineering-grade resins:
 - PEEK, ABS, FEP, PFA, ECTFE, PVDF, ETFE, PCTFE, Acetal, PPO, Polysulfone, Polycarbonate
- Custom sizes
- +/- 0.001" plastic machined tolerances
- Core diameter range: 1/16" up to 8" OD
- Precise drilling and machining capabilities
 - High-Quality machined components
 - Hole size: as fine as 1/16"
 - Burr-free holes
 - +/- 0.0001" tolerance on metal components
 - Variety of shapes
- Fittings and Adapters
