FOR IMMEDIATE RELEASE:

DNV Certifies DelStar Technologies, Inc. – Austin, TX Plant to ISO 9001:2000

AUSTIN, TEXAS (June 15, 2004) – Det Norske Veritas Certification, Inc. is pleased to announce the ISO 9001:2000 certification of the Austin, Texas facility of DelStar Technologies, Inc.

DelStar Technologies, Inc. meets the new ISO 9001:2000 certification requirements. By achieving ISO 9001:2000 certification, DelStar Technologies demonstrates its commitment to quality for the design, manufacturing and distribution of Naltex® Netting Products for its Austin, Texas manufacturing operations.

With this achievement, DelStar Technologies has joined the ranks of its worldwide customer base, many of whom also maintain ISO certification. Reaching the high standard of ISO 9001:2000 certification will provide a tremendous benefit to both DelStar-Austin and its customers' operations. DelStar Technologies' commitment to continuous quality improvement is now a documented and measurable system that will support the company's rapid growth across their diverse customer base.

In accepting the registration certificate, Mark Abrahams, President and CEO of DelStar Technologies noted, "Achieving ISO 9001:2000 certification within the established project schedule is a significant quality milestone for DelStar Technologies. Austin's certification is our first step towards achieving company-wide registration, with our Middletown facility scheduled to follow in 2005. Through an outstanding team effort, we have secured our position as an internationally-recognized manufacturing leader, as well as the reputation of Naltex netting as the premier plastic netting product."

DelStar Technologies is a custom manufacturer of plastic and metal components used in filtration, automotive, healthcare, industrial, food, electronics and textile markets. Their products include a wide variety of plastic nets, nonwovens, tubes, and cores, plus specialized plastic and metal machined parts. The DelStar Technologies' brands include **Naltex®** extruded netting, **Delnet®** apertured films, **DelPore™** meltblown nonwovens, **Stratex™** laminate composites and **Coretec™** extruded cores, tubes and machined parts.

DelStar Technologies, Inc., headquartered in Middletown, DE, has manufacturing operations at that location, as well as in Austin, TX, Richland, PA and El Cajon, CA. DelStar Technologies also has international sales offices in Bristol, England and Shanghai, China.
